

VOID PANELS

Fill voids and provide buffer protection for airbags and goods

01 / Details

Heavy Duty HDPE Solution

Absorbs impact by compressing then recovering. This memory feature ensures that the Void Panels stay in place to prevent load shifting. HDPE lightweight panels are easy to handle, yet exceptionally strong.

- Fill longitudinal void in a rail car
- Buffer between pallet loads of product
- Protection on each side of an airbag
- Replaces reinforced corrugate or plywood

**REDUCES DAMAGES
BY UP TO 80%**

**INCREASES PRODUCT
QUANTITY PER SHIPMENT**

**[CARGO
PROTECT+]**

Ergonomic hand holes

Non-skid surface grips

Withstands 50,000 lbs. of force

02 / Specifications

4-96 Void Panel

- Passes AAR official Impact test at TTCI Pueblo Colorado
- 96”h x 48”w x 4”d - 40.6 lbs
- Can fit 264 in return shipments
- Ideal for plywood replacement
- Co-extruded layer for non-abrasive, non-slip handling
- Withstands 50,000 lbs of force

4-120 Void Panel

- 120” h x 48”w x 4”d - 49 lbs
- Can fit 220 in return shipments
- Ideal for use in boxcars
- Co-extruded layer for non-abrasive, non-slip handling
- Withstands 59,500 lbs of force

2-102 Void Panel

- 102”h x 30”w x 2”d - 23 lbs
- Can fit 480 in return shipments
- Ideal for rail cars with pallets 3-wide
- Co-extruded layer for non-abrasive, non-slip handling
- Withstands 25,000 lbs of force

VOID PANELS

FEATURES

4-96 Void Panel

4-120 Void Panel

2-102 Void Panel

- Energy absorbing- cushions without crushing
- Lightweight rigid parts enable fast loading
- Ergonomic hand holes ensure easy handling
- Splinter-free & lightweight HDPE material reduces dock related injuries
- Weather & moisture resistance allows outside storage to optimize warehouse space
- Easy to clean surfaces are beneficial for use with a variety of commodities

CARGO PROTECT+ ADVANTAGES

- Environmentally Friendly
- ISPM 15 Exempt
- Long Service Life

TriEnda publishes standard guidelines for its products, based on its testing standards, and, as such, these guidelines do not constitute any warranty related to each customer's individual application. The material handling industry has not standardized on test methodology and rating criteria for each individual product. All TriEnda products are sold with the understanding that the customer will validate for themselves the suitability of the product for their specific application. As each product application is unique, the customer assumes all risks associated with the determination and actual use of the pallet.
